BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

The project started with an inspection of an existing building in Durant to house the new central laundry facility for all of the Choctaw Nation Hotels. King Architectural Solutions pointed out that the building had a post-tensioned slab so the building was abandoned as an option. A second existing pre-engineered metal building, in Hugo, OK and belonging to the Choctaw Nation, was utilized for the laundry facility. The building was retrofitted with the assistance of a laundry consultants in addition to our consulting engineering team. 20,000 Sq. Ft. Cost: \$6,500,000

Role: Architectural, Interiors, Civil, Structural & MEP
