CLIENT  
CENTERED

The Church of the Madalene was working out of a commercial kitchen that was outdated and did not meet current needs. We were contacted to provide a complete renovation of the existing commercial kitchen. The church had acquired existing kitchen equipment from Catholic Charities that they wanted to integrate into the kitchen renovation. The project then expanded to include a renovation of the adjacent Parish Hall. The expanded work included the demolition of existing windows and a partial demolition of the south exterior wall to accommodate a large window wall overlooking the existing courtyard garden. The Parish Hall was also modified to include a second entrance off the main corridor, a new large storage room, a replacement of the flooring and ceiling tile and the entire work area repainted.

Sq. Ft.: 2,812 Cost: \$368,778.00
