BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

The project included the renovation of an existing fixed kiosk for Juice Express at Woodland Hills Mall. The space, finishes and signage were subject to specific criteria required by the mall in addition to the local building code and county health regulations. Because the space was so limiting, our team worked tirelessly to maximize the space with the equipment, storage and staffing flow necessary to operate efficiently.

Sq. Ft. 275 Cost: \$14,000,

Role: Architectural, Interiors and MEP.
