CENTERED

Morton comprehensive Health is a FQHC and serves the health needs of the underserved. After a partial renovation of the existing facility, we were tasked to expand the facilities Behavioral Health Department. The new addition contains (6) Counseling/Office Rooms, Group Room and Public Restroom. The initial design intent was to match the architecture of the existing facility. However, once the budget was finalized, our team had to find alternative materials to keep the project in budget, although we utilized some characteristics of the existing facility where the budget allowed.

Sq. Ft.: 1,700 Cost: \$823,830.00

Role: Architecture, Interiors, Civil, Structural and MEP
